

Concerto Kentucky Bluegrass is the newest generation of Shamrock-type Kentucky Bluegrasses. Developed by Rutgers University, **Concerto** is an advanced hybrid cross between Shamrock and NB70. It is an exceptional early spring green-up variety with medium dark green color and good overall turf performance. **Concerto** has excellent seedling vigor for quick establishment and shows good resistance to most diseases, especially on Leaf Spot with an above average rating. **Concerto** is ideal for many different uses including high traffic areas, home lawns and athletic fields.
