

## Turf Type Tall Fescue

**Virtuoso** Turf Type Tall Fescue is a new and improved cultivar developed for exceptional performance under various management practices and climatic conditions. **Virtuoso** was selected for tolerance to drought, high temperatures and resistance to brown patch. **Virtuoso** has a dwarf growing habit, fine leaf texture and is a very dark green turf-type tall fescue. **Virtuoso** contains high levels of endophytes, which makes it very resistant to many insects and improves its stress tolerance. **Virtuoso** is the perfect choice for the professional turf manager.
